

JAYELON RASMUSSEN

Software Developer

Projects

My Recipe Box | [GitHub](#) | July 2023 - Current

- A site where users can store recipes online -- ability to create weekly meal plans and grocery lists to be added in future updates
- Building with React/Redux, Tailwind CSS, Express, MongoDB, Auth0, and Vitest.
- Working as the sole developer, creating mockups in Figma before building it

Open Library (Open Source) | [GitHub](#) | [Team Page](#) | March 2023 - Current

- Open Library is a book cataloging site, where the goal is to make a web page for every book ever published
- Currently responsible for refactoring the "Team Page" using Python, LESS, HTML, and Docker, with Figma mockups and JSON data from teammates
- Meet weekly with other developers and designers for standup
- Worked to expand documentation for the site by providing a tutorial for contributors new to the code base

Avocado | [GitHub](#) | [Live Site](#) | [Video Walkthrough](#) | March 2023

- Restaurant POS site where customers can order food and restaurant owners can view/edit their stores and associated data
- Built with React/Redux, Supabase, Tailwind CSS, Node.js, and Plotly
- Worked as the project manager, leading daily standups and making sure the project was on track. Headed up styling of Avocado as well

Experience

Teacher's Assistant

DigitalCrafts, Remote

April 2023 to Current

- Aid budding developers by answering questions and providing feedback
- Responsible for giving tailored assistance in a 1-1 setting for 3 students
- Provide encouragement to students who struggle with the rigorous pacing

Assistant Language Teacher

JET Programme, Nagano, Japan

July 2017 to July 2022 (5 years)

- Built and maintained a curriculum for 6th grade English for four years
- Gave engaging lessons on English grammar and vocabulary, as well as cultural lessons designed to introduce students to different countries
- Tutored one to two students daily before or after school in English conversation
